Koketso Lepulana

Self-motivated, versatile and a results-oriented active professional with a fair amount of comprehensive work experience, and strong proficiency in information management. I possess incredible leadership qualities and an innate ability to manage relationships and personnel. I have a strong background in academic research, consulting, entrepreneurship and management. I have a creative and analytical thinking ability encompassed with strong mathematical and finance with an Actuarial background and a rapid intuition curve that enables me to adapt to fast evolving trends. I am a passionate finance and statistics enthusiast with enormous ambitions and an impeccable skill set with a relentless drive to excel.

Volunteer, Vacation Work and other Activities

Consultant / UP Consulting, Pretoria

- UP Consulting is an organisation at the University of Pretoria that provides pro-bono services to start-up and small to medium companies. It has renowned partners such as Bain & Company, McKinsey & Company, PwC, Deloitte, BSG and the Boston Consulting Group.
- I provided business development consulting services to start-up companies, particularly with regards to strategies to improve the company's operations and to maximise profitability

Freelance Researcher / Livingston Research, Ukraine (Online)

- Livingston Research is an online based peer-to-peer research company that allows users to delegate their research projects to Livingston Research approved researchers in exchange for compensation.
- As a researcher, I had monthly targets and deadlines in terms of the number of research work to accomplish within a given period, with incentives provided; I achieved most of the targets set ahead of deadline.
- My research topics were varied in subjects such as Statistics, Mathematics, Economics, Finance and Banking including English.

Associations and Affiliations

- Association of South African Black Actuarial Professionals (ASABA)
